We ask that every member of the Catholic community consider signing the back of his or her driver's license becoming a potential organ donor. We also request that Winifred be designated as the recipient of any donated heart for which she is compatible. The entire Catholic community is asked to give this child a long and healthy future.

Due to recent federal regulations, surrounding patient confidentiality, hospitals are prohibited from releasing patient information and sometimes will not even confirm a patient being admitted. Upon admission to the hospital, if the patient gives his or her permission, a chaplain or nurse may call the parish and state that the person has been admitted. It is important for parishioners who are admitted to the hospital to notify the parish or have a family member or close friend (who you have granted permission), to notify the parish upon admission to the hospital. If you know ahead of time of your admission, you may request the Sacrament of the Anointing of the Sick by your pastor.
